

*Your work stinks,
and everyone knows it.*

*Just avoid the boss
and you should be OK.*

*Count yourself lucky
that at least you
have a job with no future.*

To prevent both gagging and dry heaving, new employees devised subtle ways to assist in caring for the nursing home residents.

In nature, weasels are ferocious and relentless predators known as "Nature's Psychopaths." In the business world, they are quite different.
