Hi Doc,
It's me, Bob.

I just got out of the hospital after 3 months. I haven't even been home here an hour yet and I'm hearing the same voices again.

No, no they don't. They don't sound human at all.

They keep saying *Yooo Hoooo*, *Yooooo Hooooo* or something and then just disappear.

I FEEL SO HELPLESS. I DON'T KNOW WHAT TO DO.

You're in Therapy?

WOULD THAT HELP?

Can't Hurt.

IF IT'S YELLOW, LET IT MELLOW.
